

FULL 3-SCREEN CREATE LOAD WIZARD (WITH OPEN DROPPDOWNS)

Paste this whole prompt into Google Stitch:

SCREEN 1 — CreateLoad_Step1_Route

Create a desktop-first screen named **CreateLoad_Step1_Route**.

This is Step 1 of the 3-step Create Load wizard.

At the top, show:

- Title: **Create New Load**
- Subtitle: “Step 1 of 3 — Route & Equipment”
- Read-only label: **Load ID: will be generated after Step 1**

SECTION: Route Information

Show a large 2-column card containing these fields:

Left Column

- **Origin (Required)**
 - Autocomplete: City, State, Zip, Saved Facilities
- **Pickup Date (Required)**
 - Date picker
- **Pickup Appointment Type**
 - Dropdown (expanded in design):
 - Drop & Hook

- Live Load
- FCFS
- Appointment Required

Right Column

- **Destination (Required)**
 - Same autocomplete
- **Delivery Date (Optional)**
 - Date picker
- **Delivery Appointment Type**
 - Dropdown (expanded):
 - Drop & Hook
 - Live Unload
 - FCFS
 - Appointment Required

SECTION: Equipment

In two columns:

- **Equipment Type (Required)**
 - Dropdown (**expanded in the mockup**):
 - Dry Van
 - Reefer
 - Flatbed

- Stepdeck
 - Power Only
 - Hotshot
 - Box Truck
 - Conestoga
- **Load Type (Optional)**
 - Dropdown (expanded):
 - Full Truckload
 - LTL
 - Partial
 - Dedicated
 - Round Trip
 - Multi-Stop
 - **Weight (lbs) (Required)**
 - Numeric
 - **Pallet Count (Optional)**

ROUTE SUMMARY (Read-only placeholder)

- “Estimated Distance: — miles”
- “Estimated Transit Time: — hours/days”

STEP BUTTONS

- Back (disabled)

- **Next → Price & Details** (Primary action)

When Next is clicked:

- If required fields are valid, call backend to generate Load ID (FP-YYREG-UCODE-SNNNNN).
- Move user to Step 2.

DESIGN REQUIREMENT:

- Keep dropdowns visually *open/expanded* in the design preview.
 - Clean white card with teal accents.
-
-

SCREEN 2 — CreateLoad_Step2_PriceDetails

Create a desktop-first screen named **CreateLoad_Step2_PriceDetails**.

Title: **Create New Load**

Subtitle: “Step 2 of 3 — Price & Details”

Read-only label: **Load ID: FP-YYREG-UCODE-SNNNNN**

SECTION: Quick Templates

Show 3 buttons:

- Standard Dry Van Load
- Reefer Food Load
- Flatbed Construction Load
(*They autofill suggestions — no logic required.*)

SECTION: Pricing

Two-column layout:

Left Column

- **Rate Type (Required)**
 - Dropdown (**expanded**):
 - Flat Rate
 - Per Mile
 - Per Stop
 - Hourly
- **Linehaul Rate (Required)**
 - Currency field
- **Fuel Surcharge (Optional)**

Right Column

- **Commodity (Optional)**
 - Text input (e.g., “Frozen Chicken”)
- **Special Requirements (Optional)**
 - Chips (multi-select):
 - Team
 - Hazmat
 - TWIC
 - Driver Assist
 - Lumper
 - Tarping
 - Oversize
- **Payment Terms (Optional)**

- Dropdown (**expanded**):
 - Quick Pay
 - 7 Days
 - 15 Days
 - **30 Days (Default)**
 - Custom

SECTION: Notes

- Textarea: “Notes / Driver Instructions”
- Link under field: “Use AI to generate instructions”

STEP BUTTONS

- ← Back to Route
- **Next → Visibility** (Primary)

DESIGN REQUIREMENT:

- Expanded dropdowns visible in mockup.
 - Clean two-column business UI.
-
-

SCREEN 3 — CreateLoad_Step3_Visibility

Create a desktop-first screen named **CreateLoad_Step3_Visibility**.

Title: **Create New Load**

Subtitle: “Step 3 of 3 — Visibility & Preferences”

Read-only label: **Load ID: FP-YYREG-UCODE-SNNNNN**

SECTION: Visibility

Radio or dropdown (**expanded in design**):

- Public (all carriers)
- My Network Only
- Selected Carriers Only

If “Selected Carriers” is chosen → show multi-select list.

SECTION: Automation

- **Auto-Match AI** (toggle ON by default)
Text: “AI will recommend the best carriers based on safety, lanes, and performance.”
- **Auto-Post To:**
 - FreightPower
 - Truckstop
 - 123Loadboard
 - (Checkboxes visible in the mockup)

SECTION: Notifications

Multi-checkbox:

- Carrier views
- Offer received
- Load covered

CONFIRMATION LINE

- “You are about to post Load **FP-YYREG-UCODE-SNNNNN** from [Origin] to [Destination].”

STEP BUTTONS

- ← Back to Price
- **Post Load** (Primary)

DESIGN REQUIREMENTS:

- Expanded dropdown options visible
- Clean desktop card layout
- Very simple and short interface

GLOBAL DESIGN INSTRUCTIONS

1. Show all dropdowns expanded in the design preview.
2. Display all three wizard screens side-by-side horizontally inside the Stitch design canvas:

- `CreateLoad_Step1_Route` (left)
- `CreateLoad_Step2_PriceDetails` (center)
- `CreateLoad_Step3_Visibility` (right)

This ensures we can visually see the entire flow at once.
